SUMMARY

I am a proactive and detail-oriented engineering student specializing in AI and ML. With experience in web development, software testing, and artificial intelligence, I thrive in collaborative team environments. I have a solid foundation in programming languages and frameworks, complemented by hands-on project experience. My passion for continuous learning drives me to tackle challenges and deliver measurable results.

EXPERIENCE

Web Design and Development Intern

TechnoHacks EduTech   **December 2024 – January 2025, Online**

· An educational technology company focused on innovative learning solutions.
· Developed and designed responsive web pages using HTML, CSS, and JavaScript.
· Implemented UI/UX improvements to enhance user experience.
· Collaborated with teams to optimize website functionality and performance.
· Gained experience in front-end frameworks and best coding practices..

Software Testing Intern

CodTech IT Solution   **December 2024 – January 2025, Online**

· A technology company specializing in software development.
· Assisted in testing web applications and software solutions to ensure functionality and performance.
· Identified and documented bugs, collaborating with developers for issue resolution.
· Gained hands-on experience in automation/manual testing methodologies and tools..

Artificial Intelligence Intern

CODEC TECHNOLOGIES INDIA   **December 2024 – January 2025, Online**

· A company focused on technological development and machine learning solutions.
· Worked on AI-driven solutions, including data preprocessing and model development.
· Gained hands-on experience with machine learning algorithms and frameworks..

Web Development Intern

GAO Tek Inc   **November 2024 – February 2025, Online**

· A company focused on providing engineering solutions and technical support.
· Developed and maintained responsive and user-friendly web applications to enhance client engagement and accessibility.

PROJECT

Quiz Application

SRM University

· A project to create an interactive quiz platform for educational assessment.
· Developed a fully functional quiz application tailored for the college community.
· Integrated a secure database to manage user data and quiz content.
· Implemented features like question randomization, real-time tracking, and automated scoring..

Face Mask Detection System

SRM University

· Collected and preprocessed face mask datasets.
· Trained a CNN model for mask/no-mask classification.
· Integrated real-time detection using OpenCV.
· Deployed a user-friendly interface for live testing.

EDUCATION

B.Tech in Computer Science Engineering with Specialization in AI&ML

SRM University of Science and Technology · Kattankulathur · 08/2023 – 05/2027

Minor Degree In Artificial Intelligence

Minor in Artificial Intelligence · IIT · Ropar, India · 2025

SKILLS

Manual Testing, Responsive Web, React

CSS, HTML, Java, JavaScript, Python

Microsoft Excel
